

Backup Exec Tech Center

Overview

When you need fast, expert-quality answers to Symantec Backup Exec™ and Backup Exec System Recovery questions, consider the **Backup Exec Tech Center**. This collection of short on-demand modules is designed to help you quick-fix problems, plan your environment, learn advanced features, and get the most out of your Backup Exec investment. Each concise module presents a topic and describes how it improves your productivity, saves you time, and saves your business money. Many modules feature a recorded demonstration of the solution being implemented by a Backup Exec expert. Take your knowledge to the next level. Subscribe today.

Practical Benefits

- **Maximize Efficiency**—Learn just what you need to know when you need it. Modules run from 5 to 15 minutes and focus on a single topic.
- **Stay Current and Confident**—Access the experience of Symantec experts who work with Backup Exec in consulting, engineering and product development.
- **The Convenience of eLearning**—The Tech Center is accessible anytime from anywhere allowing you to learn when and where you need to.
- **Peace of Mind**—Be prepared and able to respond effectively to real-world situations onsite.

Backup Exec Tech Center Highlights

A \$249 (USD) annual subscription to the Backup Exec Tech Center puts a wealth of expert experience at your fingertips.

Extensive Collection of On-Demand Modules: Learn from the Backup Exec insiders as they cover timesaving tips, quick fixes, and advanced features. This extensive collection of concise on-demand modules is regularly updated to reflect the latest advice from Symantec experts and now includes modules focusing on Backup Exec 12 and Backup Exec System Recovery 8.0. We've also added video-based instruction on many modules.

Beginning through Advanced Knowledge

If you are new to Backup Exec, you can hit the ground running with you “Backup Exec 101” series of modules. Designed for those who need concise, technical answers to basic backup questions, these modules give you an overview of backup and restore concepts. Learn the basic of what you need to protect your data. The Backup Exec Tech Center also contains an extensive set of modules designed for the veteran Backup Exec user who wants to troubleshoot complex issues and capitalize on the advanced features and capabilities of Backup Exec.

Subscribe Today

Regardless of whether you're new to Backup Exec or Backup Exec System Recovery or a veteran user, the Backup Exec Tech Center will help you optimize product functionality, reduce complexity, and lower costs.
