

Now you can print from anywhere, for less.

## Welcome to Intelligent Printing.

Kodak gives you two smart and simple ways to print from the cloud. With KODAK Email Print Service and Google Cloud Print™, you can use your home printer regardless of where you are. Send a presentation from your smartphone, print photos from your tablet, or recipes from your laptop.<sup>1</sup> It's easy and free, and as always, you'll save when you print with your KODAK All-in-One Printer.

- Kodak makes it easy to print from your smartphone, tablet, or computer
- Compatible with any KODAK All-in-One Printer
- Create KODAK Lab-Quality Photos and vibrant documents that will last a lifetime<sup>2</sup>
- Only Kodak delivers the lowest total ink replacement cost<sup>3</sup> — wherever you print from

The smart way to connect to the cloud and save.  
**KODAK HERO Series All-in-One Printers.**

### What can I print with Google Cloud Print and KODAK Email Print?

MICROSOFT WORD, MICROSOFT POWERPOINT, MICROSOFT EXCEL, PDFs, text files, HTML and email body images such as jpg, jpeg, bmp, png, gif, and tiff

### Why do I need cloud printing?

With KODAK Email Print you can instantly send a photo or document from any connected device to your home printer — whether you're curled up on the couch with your tablet, at the coffee shop with your laptop, or on the other side of the world with your smartphone — it's as easy as sending an Email.

### What Email programs<sup>4</sup> work with KODAK Email Print?

OUTLOOK 2003, 2007, 2010, LOTUS NOTES 8.5, and MAC mail, GMAIL, YAHOO! mail, HOTMAIL, Apple iOS mail, ANDROID mail, BLACKBERRY mail, NOKIA/SYMBIAN mail

<sup>1</sup>Google Cloud Print account required. Printer and sending device must be connected to the Internet. Subject to service availability.  
<sup>2</sup>Based on Wilhelm Imaging Research (WIR) and Kodak internal testing on KODAK Photo and Ultimate Plain Papers. Under all common consumer display and storage environments. Smudge resistant using KODAK Inkjet Photo Papers.  
<sup>3</sup>As compared to leading consumer inkjet printers using manufacturers' recommended standard ink cartridges available in single-quantity pricing (i.e., no multi-packs, high capacity, combo packs, value packs or special promotions); excludes printers that use only one cartridge.  
<sup>4</sup>Tested with KODAK Email Print Service. Testing does not guarantee compatibility.

## What is Google Cloud Print?

Google Cloud Print is a free service that lets you print on the go from your smartphone, tablet or computer using the mobile versions of Google Docs & Gmail, Chrome OS, and many other Google Cloud Print enabled apps.

Go to [kodak.com/go/cloudprintingsetup](http://kodak.com/go/cloudprintingsetup) to learn how to register your KODAK AiO with Google Cloud Print.

Go to [google.com/cloudprint/learn/](http://google.com/cloudprint/learn/) to get more information and support for Google Cloud Print and Google Cloud Print supported apps.

## Which KODAK Printers are “Cloud Ready,” and compatible with Google Cloud Print and KODAK Email Print?

The following KODAK AiO Printers are “Cloud Ready,” which means you can print directly to them, without the need of a connected PC, using Google Cloud Print and KODAK Email Print:

Google Cloud Print Ready

**KODAK HERO 3.1, 5.1, 7.1, 9.1**

**KODAK OFFICE HERO 6.1**

**KODAK ESP C310, 315**

**KODAK ESP Office 2150, 2170**

You may also use Google Cloud Print and KODAK Email Print to print to **all other** KODAK AiO Printers, using the KODAK Cloud Printing Software Connector. (See below)

## What are the requirements to use Google Cloud Print or KODAK Email Print with Cloud Ready Printers?

To print using **Google Cloud Print**, you will need: A KODAK AiO Printer, powered on or in sleep mode, registered and connected to Google Cloud Print via Wi-Fi or Ethernet (not USB cable). And an Internet connected device that has a Google Cloud Print enabled app.

To print using **KODAK Email Print**, you will need: A KODAK AiO Printer, powered on or in sleep mode, registered and connected to Google Cloud Print and KODAK Email Print via Wi-Fi or Ethernet (not USB cable), and an Internet connected device with an Email program.

## What is KODAK Email Print?

KODAK Email Print is a free service that assigns a unique Email address to your printer, so you can easily send documents to your printer from anywhere, using any Email capable, Internet connected device. With KODAK Email Print, you print by sending an Email to your KODAK AiO's unique Email address. When your KODAK AiO receives the Email, it will print the body of the Email, and any documents that have been attached to the Email.

**NOTE:** If your KODAK AiO has a photo paper tray, .jpg files attached to your Email will be automatically routed to your photo paper tray. Documents will be routed to your main paper tray.

Go to [kodak.com/go/cloudprintingsetup](http://kodak.com/go/cloudprintingsetup) to learn how to register your KODAK AiO with KODAK Email Print.

## Who can send Emails to my printer?

When you register for KODAK Email Print, anyone can send Emails to your printer. However, you can limit who can print to your printer by creating a white list of authorized senders. To create a white list, log on to [kodakeprint.com](http://kodakeprint.com) and click on White List.

## What is the KODAK Cloud Printing Software Connector?

The Cloud Software Connector enables cloud printing for legacy KODAK AiO Printers. If you own a legacy KODAK Printer, you can install the Cloud Software Connector on a PC or MAC that is connected to your legacy printer and has the KODAK Printer Driver installed.

Once the Cloud Software Connector has been installed, it is easy to register your legacy printer for Google Cloud Print and KODAK Email Print.

**NOTE:** With the Cloud Software Connector, your PC or MAC must be powered on in order to send print jobs to your legacy KODAK AiO Printer.

Go to [kodak.com/go/cloudprintingsetup](http://kodak.com/go/cloudprintingsetup) to learn how to register your KODAK AiO with KODAK Email Print using the Cloud Software Connector.

## What is the file size limit for Email attachments sent using KODAK Email Print?

You may send any number of attachments to be printed; however the maximum file size of any one attachment is 7 MB, and the total size of your Email with attachments should not exceed 50 MB. If your Email exceeds these limits, it will not print.

## How do I check the status and manage settings for KODAK Email Print?

At [kodakeprint.com](http://kodakeprint.com), you can create a white list of users who can send Emails to your printer, change your printer Email address, or disable the service.

You can also view the status of your KODAK Email Print jobs at [google.com/cloudprint](http://google.com/cloudprint), under the Print Jobs tab.

## Where do I find my printer's Email address?

Once you have registered your KODAK AiO Printer with the KODAK Email Print Service, you can find your AiO printer's Email address in one of two ways:

- On the front panel of your printer, press the right arrow until you see the "Cloud Printing" icon. Press the icon. Press "View Configuration." You will now see your printer's Email address.
- Log onto [kodakeprint.com](http://kodakeprint.com) with your Google account. After logging on, you will see your printer's Email address and have the opportunity to import it automatically into your device by scanning a Microsoft Tag.

## How do I change the Email address of my KODAK AiO?

To change the Email address of your printer, log on to [www.kodakeprint.com](http://www.kodakeprint.com) with your Google account, and select Change Email Address.

## How do I check print status and manage settings for Google Cloud Print?

You can view the status of your Google Cloud Print jobs at [google.com/cloudprint](http://google.com/cloudprint), under the Print Jobs tab. You can also share your printers with other Google users, under the Printers tab.

## How do I suspend Cloud Print Services?

You may temporarily suspend cloud print services on your printer's front panel. Press the right arrow until you see "Cloud Printing." Press the "Cloud Printing" icon, and then select "Suspend Cloud Printing." When you suspend Cloud Printing, your printer will no longer be able to receive Cloud Printing jobs. To resume Cloud Printing, press "Resume Cloud Printing" under the "Cloud Printing" menu.

## Does Kodak or Google save my documents on a server?

When you send a document to your KODAK AiO Printer using Google Cloud Print or KODAK Email Print, the document will remain in a print queue until it has finished printing. Once the print job is complete, the document will be deleted from the server.

**NOTE:** To get more information about Google Cloud Print privacy policies, please visit [google.com/support/cloudprint/](http://google.com/support/cloudprint/)
